Abstract

This project aims to bridge the gap between local restaurants in San Cristóbal de Las Casas and potential customers (locals, national, and international visitors) by providing a digital platform with advanced search filters (price, schedule, cuisine type, and location). Through an intuitive interface including a search bar and personalized filters by promoting culinary diversity and supporting the local economy.

The platform allows users to search for restaurants using a search bar, apply custom filters, or select directly from options displayed on the main view. Additionally, it offers registration functionality (for restaurant owners or administrators) and login capability for existing account holders.

User registration

For restaurant owners

Validation Request

Restaurant owners can verify their business by providing: their contact number and address, three photos of the establishment (PNG/JPG), and a PDF address proof document.

This screen provides complete management of the restaurant profile - allowing

owners to update operating hours, location, social media links, and tags, with options to both save changes and manage subscription plans.

Membership Payment

The screenshot shows a modal window titled "Pago de membresía" (Membership Payment) overlaid on a restaurant editing interface. The modal contains fields for "Correo electrónico" (Email), "Contraseña" (Password), "Número de celular" (Cell phone number), and "Motivo:" (Reason). Below these fields is a note about the membership containing statistics and interests. At the bottom is a red "Enviar" (Send) button. The background shows a restaurant's name, "Restaurante: La Mansión", and sections for "Galería de Imágenes" (Image gallery) and "Horarios" (Hours).

This form collects user data to activate a premium membership, which provides analytics and privileged positioning features, concluding with submission of the request.

Restaurant Editing Interface (with Subscription)

The screenshot shows a "Bienvenido" (Welcome) screen for a restaurant named "La misión". It includes a "Estadísticas" (Statistics) button, an "Image gallery" section with three placeholder boxes, and a "Horarios" (Hours) section for "Lunes a Viernes" (Monday to Friday) and "Sábado a Domingo" (Saturday to Sunday). The top navigation bar includes the restaurant logo, the name "Restaurante San Cristóbal", and a "Cerrar sesión" (Logout) button.

Includes all restaurant editing features, but with the statistics view feature

Statistics Dashboard

The dashboard features three main cards:

- DESCARGAS DE MENÚ**: Includes a download icon, "Esta semana" (This week) and "Total acumulados" (Cumulative total) metrics, and a growth percentage "+%".
- INTERÉS POR ORIGEN**: Includes a globe icon and a chart comparing "Locales %" (Locals %) and "Extranjeros %" (Foreigners %).
- ASPECTOS DESTACADOS**: Includes an eye icon and a horizontal bar chart showing percentages for three categories.

Footer information includes contact details (Email: sazonpatrimonial@gmail.com, Phone: +52 961 652 2093, Instagram: @sazonpatrimonial), logos for Sazón Patrimonial, Devbox, and Universidad Politécnica de Chiapas, and a "Cerrar sesión" (Logout) button.

This panel helps restaurant owners visualize strategic data including menu downloads, customer interest by origin, and key highlights - providing valuable insights to measure business performance

Admin Dashboard

The dashboard includes a sidebar with navigation icons (X, back, forward, user, search) and a main section titled "Administrador Restaurantes". It displays a table with columns: Nombre (Name), Ubicación (Location), Etiquetas (Tags), and Acciones (Actions). A single row is shown with "Nombre 1", "Ubicación 1", "Etiqueta 1", and edit/delete icons.
